I've been seeing endangered Sharp-shinned hawks fly through my yard and into the woods of 1564 Monroe Turnpike North east of my property for years, but this is the first time I've been able to actually photograph one. I request that there be a hearing for the 1536 and 1564 Monroe Turnpike project to help protect this hawk. I have reported it to DEEP. I have many more photographs and videos. This photo was taken on August 11 at 6:52 PM.

My apologies for sending this email from my business email, but my iPhone is not able to send out emails from my pjelly@charter.net email account, only my business email address.
